Safety Officer

Bill Losey reported that there were no major safety issues, but Buddy had mentioned that pilots are taxiing powered aircraft into the pits. It was noted that pilots should not taxi directly toward the fence openings to the pits and should power down their aircraft on the runway.

Old Business

- The field was rolled in April.
- The Buy and Fly was a success
 - There were 30-35 visitors.
 - We made about \$140 from this event.
 - Thanks to Buddy, Kenny, John Flynn and Dan Crawford for the work they put in to make this event a success.

New Business

- Alvin had requested that the club look into adding stone to the driveway. It was agreed to have Ray get an estimate for this.
- There was a suggestion to consider a storage shed to keep the club field equipment (barbecue, generator, etc.).
 - Leif suggested we consider a half-shed design that could be placed against the back of the radio impound. This would form a wind-blocking wall without involving the need for building permits.
 - It was agreed to have Ray look into the feasibility and cost for such a shed.
 - In the meantime, it was suggested that we request some dedicated space in the front left corner of Alvin's storage building.
- No date has been set for the club Fall Picnic.

New Members

The club accepted provisional membership for:

- Stanley Michalski - Stan is from Baltimore and has been flying a range of aircraft from u-control to RC airplanes and helicopters. He had been flying at Delaware RC club, but our club is more convenient to his workplace in Oxford. Stan will be sponsored by Bruce Ginn.

There were no prospective members present awaiting membership approval.
